EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

Insert the following below the title of the invention as the first paragraph:

-- This application is a 371 of PCT/EP03/02710 filed March 14, 2003. --

In the Claims:

In claim 2, line 2, following 'formula II', insert:

In claim 2, line 4, following 'formula III', insert:

In claim 2, line 4, delete "R.sup.8 and R.sup.9" and in place insert -- R⁸ and R⁹ --.

Note: (1) The above amendments to claim 2 is to eliminate the typographical errors so that the claim is consistent with the originally presented claim.

(2) Claim 2 as amended is attached herewith in Appendix.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The amendment filed on March 5, 2010 obviates the rejections of the previous office action, all except the provisional obviousness-type double patenting rejection over copending applications No. 10/549,250 and 11/377,716. As can be seen, the only other rejection remaining is "provisional" obviousness-type double patenting rejection over copending applications, which are later filed as compared to the effective filing date of the instant application. As per MPEP § 804, the provisional double patenting rejections should be withdrawn in the earlier filed application thereby permitting the earlier filed application to issue. Further, the claims of S.No. 11/377,716 are drawn to compounds that are structurally different from the instant claims. Specifically, the reference claims are drawn to compounds wherein R^1 and R^2 together with the carbon atoms to which they are attached form non-aromatic carbocyclyl or heterocyclyl as compared to the instant claims which at the analogous position contain aryl or heteroaryl groups.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
